Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner and applicant discussed the nature of the invention and the proposed amendment to the claims. The applicant argued that Krishan does not teach switching back to an original content with said entering operation is executed. The examiner argued this is obvious variation and cited simple screen saver use. The applicant inquired about examiner remarks in the last action and the examiner explained where details and further definition should be placed with regards to the tabs and embedded program. Applicant asked if the discussed claim amendments were allowable and the examiner requires a further search and consideration before making that judgement.
